DETAILED ACTION

- I. Rejection of claims 19,21-35 under 35 USC 112, 1st paragraph will be maintained in light of amendment filed 12/19/05. Applicant argues: 1) Guanidinoacetate is not a salt and is not the same as guanidine acetate which is a salt; and 2) Rejection does not provide a basis for limiting the claims to only named prion diseases. Examiner argues: Guanidinoacetate and guanidine acetate are equivalent compounds arising from a combination of guanidine and acetate; 2) There exist basis for limiting Applicant to instant named prion diseases. Basis lie within what is disclosed in the specification, particularly working examples. Claims are not in commensurate in scope with examples disclosed in the specification.
- II. Rejection of claims 19,22-25,27-29 under 35 USC 102(e) as being anticipated and claim 30 under 35 USC 103(a) as being obvious over Kaddurah-Daouk will be maintained for reason on record and reasons as follows. Applicant argues: 1) Guanidinoacetate is not a salt and is not the same a guanidine acetate which is a salt (Applicant references USPN 5324731 for support). Examiner argues: Guanidinoacetate and guanidine acetate are equivalent compounds arising from a combination of guanidine and acetate.
